Summary

Innovative and detail-oriented professional with a passion for crafting seamless, user-centric digital experiences. Blends creativity, technical expertise, and a strong problem-solving mindset to build solutions that are both functional and visually engaging.

Experience

Frontend Developer Intern

Carbon Crunch

Mar 2025 - Present

- Crafted responsive web interfaces with React.js and Tailwind CSS, increasing user retention by 18% through optimized UI/UX.
- Worked closely with the design and product teams to develop responsive, scalable, and interactive UIs using React.js, JavaScript, and Tailwind CSS.
- Contributed to the development of multiple customer-facing features, enhancing user experience and reducing UI-related bugs by 30% through clean, modular code practices.

UI/UX Designer

Freelance

July 2024 - Feb 2025

- Developed high-fidelity wireframes and prototypes in Figma, streamlining design approval and speeding up development handoff.
- Delivered high-quality 12+ projects on time, ensuring clear communication with clients.
- Created responsive web interfaces using design systems, ensuring seamless performance across desktop, tablet, and mobile devices.

Education

Jawaharlal Institute of Technology, Borawan

Bachelor of Technology in Computer Science

July 2021– May 2025

7.95 CGPA

Central Board of Secondary Education

Higher Secondary School

April 2019– March 2020

61.2 %

Technical Skills

Languages: JavaScript, TypeScript, Python

Projects

EventX - Event Management Platform | React.js, Tailwind CSS, Responsive Web

[Link](#)

- Developed a responsive event landing UI with sections like hero, new & past events, and testimonials using a modern component-based architecture.
- Implemented a fully functional event booking form with input validation, responsive layout, and submission feedback to simulate real-world interactivity.
- Focused on user-friendly design, reusable components, and mobile-first responsiveness.

Framelit - Personalized Wallpaper App | React.js, Tailwind CSS & Unsplash Api

[Link](#)

- Engineered a dynamic wallpaper browser by integrating the Unsplash API to fetch and display high-quality wallpapers in real time.
- Designed a responsive UI with grid layout, dark mode, and full-resolution download support for an optimized user experience.
